## RF Constant Voltage LED Driver

## Model No.: LP-150RF-12, LP-150RF-24

## Features

- Dimming interface: RF Wireless, AC Push-Dim
- Match with RF 2.4 G single color remote control, one RF LED driver accepts up to 10 remote controls
- 1 channel constant voliage output, Max. total output power 150 W
- Built-in active PFC function: 0.98 Typ
- Auto-transmitting function: LED driver automatically transmit signal to another LED driver with 30 m control distance
- Synchronize on multiple number of LED drivers
- Light on / off fade time 3 s selectable
- Over-heat / Over-load / Over-voltage / Short circuit protection
- Suitable for indoor LED lighting application
- 5 Year, 50,000hr warranty

Mechanical Structures and Installations

Technical Parameters

| Model |  | LP-150RF-12 | LP-150RF-24 |
| :---: | :---: | :---: | :---: |
| Output | Output Voltage | 12VDC | 24 VDC |
|  | Output Current | Max. 12.5A | Max. 6.25A |
|  | Output Power | Max. 150W |  |
|  | Startup time | 2S/100VAC, 1S/230VAC |  |
|  | Dimming Ronge | 0~100\% |  |
|  | Ripple \& Noise | < $=150 \mathrm{mV} / 230 \mathrm{VAC}$ |  |
|  | PWM Frequency | 2000 Hz |  |
| Input | Input Voltage Range | 100~277VAC |  |
|  | Frequency Range | $50 / 60 \mathrm{~Hz}$ |  |
|  | Efficiency | 92\%/230VAC |  |
|  | Allernating Current | 2A/100VAC, 0.75A/230VAC, 0.7A/277VAC |  |
|  | Power Factor | >0.98/230VAC |  |
|  | THD | <5\%/100VAC, <10\%/230VAC@ half lood/277VAC@75\%load |  |
|  | Inush Current | Cold start 71A at 230VAC |  |
|  | Anti Surge | L-N: 1 kV |  |
|  | Leakage Current | <5mA |  |
|  | No Load Power | 2W/100VAC, 2W/230VAC, 2.5W/277VAC |  |
| Protection | Over Load | Shut down the output Voltage, when the load $>=110 \% \sim 140 \%$, auto recovers. |  |
|  | Over Voltage | Shut down the output Voltage, when the Volloge>= $=110 \% \sim 140 \%$, re-power on to recover |  |
|  | Over Temperature | Shut down the output Voliage, re-power on to recover |  |
|  | Short Circuit | Shut down the output Voltage, re-power on to recover |  |
| Environment | Woking Temperature | $-30^{\circ} \mathrm{C} \sim 50^{\circ} \mathrm{C}$ |  |
|  | T-case Max | $90^{\circ} \mathrm{C}$ |  |
|  | Working Humidily | 20\% $\sim 90 \% \mathrm{RH}$, non-condensing |  |
|  | Storage Temperature/Humidily | $-40^{\circ} \mathrm{C} \sim 80^{\circ} \mathrm{C}, 10 \% \sim 95 \% \mathrm{RH}$ |  |
|  | Temperature Coefficient | $\pm 0.03 \% /{ }^{\circ} \mathrm{C}$ (0-50\%) |  |
|  | Vibration Resistance | $10-500 \mathrm{~Hz}, 2 \mathrm{G}, 6 \mathrm{~min} / \mathrm{cycle}, \mathrm{X}, \mathrm{Y}, \mathrm{Zaxes} / 2 \mathrm{~min}$ |  |
|  | 1 P Rating | 1 P 20 |  |
| Safety\&EMC | Security Specificalions | IEC/EN61347-1, IEC/EN61347-2-13, GB 19510.14 |  |
|  | Withstand Voltage | 1/P-O/P: 3750VAC |  |
|  | Insulation Resistance | 1/P-O/P: $100 \mathrm{M} \Omega / 500 \mathrm{VDC} / 25^{\circ} \mathrm{C} / 70 \% \mathrm{RH}$ |  |
|  | EMC Emission | EN55015, EN61000-3-2 Class C, IEC61000-3-3 |  |
|  | EMC Immunity | EN61000-4-2.3.4.5.6.8.11, EN61547 |  |
|  | Cerrications | CE |  |

## Applications

- Suitable for LED related fixture or appliance which use LED light bar and LED tape like LED Decoration or Adveisement devices. - Office / Commercial / Domestic Lighting, Hotels, Retail and Display
- Use for retrofit upgrades \& new luminaire designs

## 1. RFConnection

## Match Remote Control (two match ways)

End user can choose the suitable match/delete ways. Two options are offered for selection:

## Use Match key

Match:
Short press match key, immediately press on/off key (single zone remote) or zone key (multiple zone remote) of the remote.

Delete:
Press and hold match key for 5 s to delete all match, The light blinks 5 times means all matched remotes were deleted.

## Use Power Restart

Match:
Switch off the power, then switch on power, repeat again Immediately short press on/off key (single zone remote) or zone key (multiple zone remote) 3 times on the remote. The light blinks 3 times means match is successful.

Delete:
Switch off the power, then switch on power, repeat again Immediately short press on/off key (single zone remote) or zone key (multiple zone remote) 5 times on the remote The light blinks 5 times means all matched remotes were deleted

## When use multiple RF drivers, two application method:

1. All the drivers in the same zone.

Auto-transmitting: One driver can transmit the signals from the remote to another driver within 30 m ,
as long as there is a driver within 30 m , the remote control distance can be extended.
Auto-synchronization: Multiple drivers within 30 m distance can work synchronously when they are controlled by the same remote.
Driver placement may offer up to 30 m communication distance. Metals and other metal materials will reduce the range. Strong signal sources such as W ifi routers and microwave ovens will affect the range.
We recommend for indoor applications that driver placements should be no further apart than 15 m .
2. Each driver(one or more) in a different zone, like zone 1, 2, 3 or 4.

## 2. AC Push-Dim connection

The provided AC Push-Dim interface allows for a simple dimming method using commercially available non-latching (momentary) wall switchs.

- Short press:

Turn on or off light.

- Long press (1-6s):

Press and hold to step-less dimming,
With every other long press, the light level goes to the opposite direction.

- Dimming memory:

Light returns to the previous dimming level when switched off and on again, even at power failure.

- Synchronization:

If more than one LED driver are connected to the same push switch, do a long press for more than 10 s, then the system is synchronized and all lights in the group dim up to $100 \%$.
This means there is no need for any additional synchrony wire in larger installations.
We recommend the number of LED drivers connected to a push switch does not exceed 25 pieces,
The maximum length of the wires from push to LED driver should be no more than 20 meters.

## Dimming Curve

## Light on/off fade time

ong press match key 5 s, then short press match key 3 times, the light on/ off time will be set to 3 s , the indicator light blink 3 times.

Long press match key 10 s , restore factory default parameter, the light on/off time also restore to 0.5 s .
